

## Domestic Cleaning

Our regular domestic cleans are weekly or fortnightly with a 2 hours min.

Our cleaners require the home to be "cleaner ready", if the cleaner has to pick up to clean this is added time and therefor an added cost to you.

If you have teenagers with "floordrobs" we understand, but unless we have added time to pick up before we vac then it may not get done.

All equipment and products to be supplied by the client. This prevents cross contamination of infection from one house to another, makes sure the product you have in your home wont affect any family member with allergies, and reduces the strain on our cleaners carrying heavy equipment in and out of their cars several times a day.

If you require your cleaner to provide cleaning equipment and products that can be arranges at an extra cost of \$5.00 per hour.
